

50th Annual Psychopharmacology Conference

Thursday – Sunday • October 15-18, 2026
Westin Copley Place, Boston, MA

WELCOME

On behalf of the entire Massachusetts General Hospital Department of Psychiatry, we are proud to welcome you to our 50th Annual Psychopharmacology Conference.

We have both been part of this conference in various ways since it began. Now as Course Directors, we reflect and celebrate that over the past 50 years it has educated thousands of professionals on the latest advances in psychopharmacology of psychiatric disorders.

During each session, we ask our faculty to share their experience in caring for patients of all kinds, from the common to the challenging. Many of the faculty also lead research that molds the standards of care for psychiatric conditions. This perspective as clinician-researchers is unique. That's why our focus at this conference is more than to simply share knowledge. It is to help translate an understanding of evidence into actionable ways you can provide the best possible care to your patients.

This year as always, our faculty review the latest data from clinical trials and new studies. They also highlight effective pharmacologic and behavioral interventions for an array of mental health conditions. Specific sessions cover anxiety, ADHD, depression, bipolar disorder, eating disorders, OCD, psychosis, PTSD, substance abuse, and much more.

We encourage you to ask questions during Panel Discussions and find the answers you need and take advantage of Curbside Consultations where faculty can discuss cases face-to-face and enjoy networking and sharing ideas with more than 700 colleagues who join us this year from nearly all 50 states and 12 countries.

Thank you for joining us in Boston this year for our 50th anniversary and for the trust you place in us.

COMPLIMENTARY BREAKFAST AND COFFEE BREAKS

Complimentary breakfast and coffee breaks will be available to course participants. Please note that lunch and dinner will be on your own.

TARGET AUDIENCE

The target audience for this event is Psychiatrists, Psychologists, General and Family Practice Physicians, Psychiatric Nurses, Physician Assistants, Nurse Practitioners and Social Workers.

EVALUATION FORMS/CME/CEU CERTIFICATES

Every participant needs to complete the activity evaluation online to claim CME/CEU credits for this course. Please refer to the **Evaluation and CME Information** document in this syllabus for more information. We strongly encourage you to complete the evaluation, even if you do not require a certificate. Your comments are important to us as we plan future programs. The link to claim credit is as follows: <https://mghcme.org/courses/50th-annual-psychopharmacology-conference/>

LEARNING OBJECTIVES

At the end of this educational activity, participants should be able to:

1. Identify rational, evidence-based pharmacologic and non-pharmacologic therapies for patients with unipolar, bipolar, treatment-resistant, and post-partum depression.
2. Compare the neurobiology and evidence-based treatment approaches to addiction, anxiety, schizophrenia, and mood disorders.
3. Review the course and treatment of psychiatric disorders during pregnancy and menopause.
4. Analyze drug interactions and the pharmacotherapy of adult ADHD and geriatric disorders.
5. Apply newer strategies in treatment of chemical abuse/dependence
6. Analyze evidence-based treatment for psychiatric illness
7. Assess the most recent state of the art treatment alternatives
8. Assess new therapies and what is on the horizon
9. Analyze the use of CBT based techniques

*For a full list of learning objectives, please reference the conference website.

FACULTY DISCLOSURE STATEMENTS

In accord with the disclosure policy of The Institute of Health Professions as well as guidelines set forth by the Accreditation Council on Continuing Medical Education, all people in control of educational content, including speakers, course directors, planners, and reviewers, have been asked to disclose all relevant financial relationships with commercial interests of both themselves and their spouses/partners over the past 12 months, as defined below:

Commercial Interest

The ACCME defines a “commercial interest” as any entity producing, marketing, re-selling, or distributing health care goods or services, used on, or consumed by, patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests. For more information, visit www.accme.org.

Financial relationships

Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

Relevant financial relationships

ACCME focuses on financial relationships with commercial interests in the 12-month period preceding the time that the individual is being asked to assume a role controlling content of the CME activity. ACCME has not set a minimal dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship. The ACCME defines “relevant” financial relationships” as financial relationships in any amount occurring within the past 12 months that create a conflict of interest.

Conflict of Interest

Circumstances create a conflict of interest when an individual has an opportunity to affect CME content about products or services of a commercial interest with which he/she has a financial relationship.

The following planners, speakers, and content reviewers, on behalf of themselves and their spouse or partner, have reported financial relationships with an entity producing, marketing, re-selling, or distributing health care goods or services (relevant to the content of this activity) consumed by, or used on, patients:
